

Your source for high quality, affordable lasers

## **DATA SHEET**

## RED DIODE LASER AT 660nm

Diode red laser 660nm is made features of ultracompact, long lifetime, low cost and easy operating, which is widely used in measurement, spectrum analysis, laser lighting show, etc.

## **Model: MRL-III-660D**/1~1000mW

| Wavelength ( nm )                       | 660 ±5nm              | 660 ±5nm                                       |             |  |
|-----------------------------------------|-----------------------|------------------------------------------------|-------------|--|
| Output Power ( mW )                     | >100, 200,, 100       | >100, 200,, 1000                               |             |  |
| Transverse Mode                         | Near TE <sub>00</sub> | Near TE <sub>00</sub>                          |             |  |
| Operating Mode                          | CW                    | CW                                             |             |  |
| Power stability (rms, over 4 hours)     | <1%, <3%, <5%         | <1%, <3%, <5%                                  |             |  |
| Warm-up time (minutes)                  | <5                    | <5                                             |             |  |
| M <sup>2</sup> factor                   | <20                   | <20                                            |             |  |
| Beam divergence, full angle (mrad)      | <2.5                  | <2.5                                           |             |  |
| Dimensions of beam at aperture (mm)     | ~5 x 8                | ~5 x 8                                         |             |  |
| Beam height from base plate (mm)        | 24.8                  | 24.8                                           |             |  |
| Polarization ratio                      | >50:1                 | >50:1                                          |             |  |
| Pointing stability after warm-up (mrad) | < 0.05                | <0.05                                          |             |  |
| Operating temperature ( $^{\circ}$ C)   | 10~35                 | 10~35                                          |             |  |
| Power supply (90-264VAC or 5VDC)        | PSU-III-FDA           | PSU-III-LED                                    | PSU-III-OEM |  |
| Modulation option                       | TTL/Analog 1Hz-5      | TTL/Analog 1Hz-5KHz, 1Hz-10KHz, and TTL on/off |             |  |
| Expected lifetime (hours)               | 10,000                | 10,000                                         |             |  |
| Warranty period                         | 1 year                | 1 year                                         |             |  |
